### **A. SPONSORS**

#### **Albrecht-Kemper Museum of Art**

The Albrecht-Kemper Museum of Art has one of the finest collections of 18<sup>th</sup> thru 21<sup>st</sup> century American art in the Midwest region. Through special exhibitions, educational programs performance events and publications, the Albrecht-Kemper serves as a cultural arts center for Northwest Missouri.

The Museum originated in 1913 with the foundation of the St. Joseph Art League—twelve women who sought to increase public awareness and understanding of the arts. The League opened the Albrecht Gallery in 1966 in the former home of Mr. and Mrs. William Albrecht. At the initiation of a major building expansion in 1991, the Museum became The Albrecht-Kemper Museum of Art, honoring the patronage of Mr. R. Crosby Kemper.

## **Mosaic Life Care**

At Mosaic Life Care, we are committed to providing the best and safest care, while creating a warm, inviting environment for our patients, family members and caregivers. Our innovative life-care model combines traditional health care and a focus on key life elements that affect overall wellness. It is our commitment to the health, well-being and vitality of the communities and organizations we serve. The experience that patients, visitors and caregivers encounter within these walls is a primary focus at Mosaic Life Care. We would like to enhance this experience with the addition of original, inspiring and healing art created by local and regional artists.

The arts will transform the hospital environment by enhancing the health care experience and encouraging physical and emotional well-being. The idea of art as a transformative experience in hospitals has proven to be very successful. The British organization Paintings in Hospitals was founded in 1959 by a hospital employee who saw the positive effect that bringing the visual arts into a health care environment had on patients' health and well-being. Today, many art-in-hospitals programs have blossomed into extensive networks of artists, art organizations, and hospitals.

According to widely accepted research, the art-health initiative within the health care environment was shown to:

- Improve symptoms in patients, such as a shortened length of hospital stay, decrease in use of pain medication and lowered blood pressure.
- Increase satisfaction with the health care environment in patients, family and staff.
- Decrease employee turnover rate.

Our goal of this program is two-fold - create a dynamic, aesthetically rich and engaging environment through artwork for our patients; while celebrating the talent of our local artists and creating a new outlet through which artists can impact our community.
